Summary

Final-year **Computer Science Engineering** student with a **7.28 CGPA** and a strong interest in software development. Currently working on backend logic using **PHP** and building mobile app interfaces with **Flutter**. I am a quick learner looking for a **Trainee position** where I can use my coding skills to solve real-world problems and grow professionally.

Education

Dr. B.R. Ambedkar Polytechnic College

Diploma in Computer Science Engineering (Final Year)

Sep. 2023 – May 2026

Gwalior, MP

Technical Skills

Languages: Python, PHP, SQL (MySQL), Dart, HTML/CSS

Data Science: Pandas, NumPy, Matplotlib, Seaborn, Scikit-Learn, Jupyter Notebook

Tools: Flutter (Learning), VS Code, GitHub, Git, XAMPP, Android Studio

Core Concepts: Machine Learning, Data Visualization, DBMS, OOPS, SDLC

Project Experience

Full-Stack Developer — DoubtDock (Academic Capstone) | *PHP, MySQL,*

Oct. 2025 – 2026 feb

- Engineered a centralized platform for **100+ students** to streamline query resolution and mentor-student interaction.
- Designed a robust relational database with **MySQL**, ensuring **99.9% data integrity** through normalized schemas.
- Enhanced backend performance using **Core PHP** by streamlining database queries and session management logic.

Data Analyst — Kaggle Open-Source Datasets | *Python, Pandas, Seaborn*

Aug 2025 – Oct. 2025

- Analyzed datasets with **5,000+ records**, automating data cleaning and handling missing values using **Pandas** and **NumPy**.
- Developed **15+ statistical visualizations** to identify hidden trends, improving data-driven insights clarity by **40%**.

ML Developer — Classification & Predictive Modeling | *Python, Scikit-Learn*

Aug. 2025 – Oct 2025

- Built a **K-Nearest Neighbors (KNN)** classification model, achieving high precision through feature engineering and scaling.
- Refined model hyperparameters and validated results using cross-validation techniques to ensure prediction stability.

Areas of Interest

Focus: AI Integration in Mobile Apps, Data Pipelines, Cross-Platform Architecture.

Goals: Mastering Flutter for AI-driven mobile solutions and Cloud Deployment fundamentals.

Relevant Coursework

Data Structures & Algorithms, Database Management (DBMS), Software Engineering, Operating Systems, Object-Oriented Programming (OOPs), Internet Technology
